**HB 2631 Passed by the Senate**

On March 20, the Senate passed [HB 2631](#) on a vote of 39-0. This bill includes a proposal for an Extended Care Permit (ECP) III. HB 2631 also includes the Kids Oral Health Improvement provision ([included in SB 326](#)), an amendment to the charitable practice act, and a provision to increase the number of seats at UMKC School of Dentistry for Kansas students. The bill was amended in the Senate to include a few new provisions, including a requirement that the ECP III hygienist shall notify the patient or the patient's parent or guardian of the patient's need for treatment by a dentist when the ECP III finds an apparent need for further evaluation and diagnosis.

HB 2631 has moved back to the House of Representatives for consideration. The House may either concur in the Senate amendments or request a conference committee be appointed. Watch [Oral Health Kansas' Facebook page](#) for updates on this bill.

**Oral Health in the News**

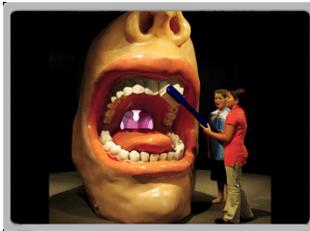

Over the last month there has been an incredible amount of national, state and local media attention on the challenges of oral health. Today we present you with a round-up of many of the stories we have been following. This list is in no way

**2012 Kansas Mission of Mercy**

This month the Kansas Dental Association and the Delta Dental of Kansas Foundation announced the formation of KIND: The Kansas Initiative for New Dentists. Through the generosity of the Delta Dental of Kansas Foundation, KIND will provide two \$50,000 grants to dental school graduates who set up practice in the "dental deserts" of the state. These are communities that do not have a dentist within 20 miles. Applications for the KIND program will be accepted until May 15.

## 2nd Anniversary of the Affordable Care Act & A Supreme Court Challenge

Friday, March 23 will mark the second anniversary of the Affordable Care Act. This anniversary will be followed immediately on March 26 by a Supreme Court hearing on the constitutionality of the law.

Besides eliminating pre-existing conditions and allowing children to stay on their parents' insurance longer, the Affordable Care Act (ACA) provides a dental benefit for all American children. Just last week the U.S. Department of Health and Human Services issued the final rule on the Establishment of Exchanges and Qualified Health Plans. The final rule creates the parity advocates have sought in implementing the pediatric dental benefit guaranteed under the ACA.

Thanks to our friends at the [Children's Dental Health Project](#) for the following analysis of the new rule:

In response to comments from advocates related to parity in pediatric dental benefits, the final HHS rule clarifies that families will have the same level of consumer protections, affordability standards, and access to pediatric dental coverage whether they purchase that coverage from a stand-alone dental plan or a qualified health plan.

### Specifically, this rule will:

- Apply the same cost-sharing limits and restrictions on annual and lifetime limits to stand-alone dental plans as are applied to qualified health plans;
- Require stand-alone dental plans to offer child-only plans in the Exchanges;
- Require the Exchange to ensure that participating dental plans have the provider network capacity to

on average.

Join Our Mailing List!

- offer sufficient access to all eligible children;
- Require that stand-alone dental plans comply with all certification standards for qualified health plans except for those related to services other than pediatric oral health care;
- And direct the Exchanges to collect rate information on pediatric dental benefits for the purposes of determining advance payments of the premium tax credit.

If implemented as outlined in the rule, these provisions stand to greatly improve dental coverage in terms of access, affordability and quality for families in the Exchanges, regardless of how they get their coverage. [CLICK HERE](#) for the full text of the rule.
